- Pay close attention to presentation – with cut pieces use a sharp knife for a clean edge.
- Coat evenly if using 100's & 1000's.
- Do not use packet mixes unless stated.
- If you are making a range of things show your skills by choosing things which are very different.
- Make scones biscuits and small cakes not too big. Don't overcrowd the plate,
- Choose scones of similar color and size, remember to dust off flour.
- Put a tea towel over cooling rack so you don't get left with rack lines on your cake.
- It's best if you do all the decorating and cooking yourself. With adult supervision. Judges can tell when adults help.

Hints for Junior Gardeners

- When decorating a saucer, keep inside the edge of plate, and remember cotton wool can be used to hold your decoration in place instead of sand.

- ½ teaspoon ground ginger.
- 250 gm currants
- ½ teaspoon ground cloves.
- 125 gm chopped mixed peel.
- 250 gm butter.
- 90 gm chopped glace cherries.
- 250 gm soft brown sugar.
- 90 gm chopped blanched almonds.
- ½ teaspoon lemon essence. Or finely grated lemon rind.
- 1/3 cup sherry or brandy.

½ teaspoon almond essence.

250 gm plain flour.

½ teaspoon vanilla essence.

60 gm self-raising flour.

4 large eggs

Fruit may be cut, but not minced. Depending on size, snip raisins into 2 or 3 pieces, cherries into 4 or 6 pieces and almonds slit cross wise into 3-4 pieces.

Here's what to do:

Mix together all fruit and nuts and sprinkle with sherry or brandy.

Cover and leave for at least one hour, but preferably overnight.

Sift together the flour and spices. Cream together the butter and sugar with the essences. Add eggs one at a time, beating well after each addition then; alternately add the fruit and flour.

mixtures. Mix thoroughly. The mixture should be stiff enough.

to support a wooden spoon. Place the mixture into a prepared.

18- 20cm (7-8 inches) tin and bake in a slow oven for Approx.

3 ½ - 4 hours. Allow cake to cool in tin.

Class 157 Anniversary Cake Recipe

Made in the true Colonial Style. In 1855 baking powder was invented, so no longer was it important to beat eggs for a long time.

1855 Recipe from Ryan House.

Ingredients:

1-1/2 cups butter (3/4 warmed)

2-1/2 cups white sugar

1-1/2 cups sour milk. (You can use evaporated milk soured with one teaspoon of white vinegar)

1 teaspoon baking powder.

4 eggs.

2 cups ground coconut.

½ teaspoon salt.

1 teaspoon vanilla.

2 pounds of white raisins. (Note 1 pound is = to 454 grams.)

1-pound mixed peel.

1 cup chopped dried apricots.

1 cup diced orange peel.

1 teaspoon orange extract.

5 cups white flour(divided)

HERES WHAT TO DO

Mix butter, sugar, sour milk, eggs, 3 cups flour, coconut and vanilla as any cake.

Mix the remaining 2 cups flour with mixed fruit in large bowl, combine fruits, then combine

flour, salt, and baking soda and sift over fruit mixture.

Toss until fruits are well coated. Mix floured fruit with other batter. Use heavy nonstick tube pan or Bundt pan 10 x 4 inches deep, well-greased and floured.

Turn into prepared pan and bake for 3 hours. In a 300-degree oven.

Test for doneness by inserting toothpick in centre of cake. Makes 2 cakes. Cakes bake best if you place a small pan of water in the bottom of the oven. This keeps the cake from drying out. Cake batter can also be divided into loaf pans, small or large: adjust baking time.

Before baking you can decorate the top of the cake with blanched almonds. Cool cake in pan on rack, then remove. When cake is cold wrap in cloth soaked in brandy or bourbon, then in foil.

Store in tightly covered container, the longer the better. Keep brandy cloth moist. Good luck

CLASS 158 Victorian Sponge Sandwich Recipe

Anna the Duchess of Bedford (1788-1861), one of Queen Victoria's ladies in waiting, is credited as the creator of teatime. Because the noon meal had become skimpier at about 4 o'clock in the afternoon the Duchess suffered a sinking feeling. At first her servants would sneak her a pot of tea and a few breadstuffs. Adopting the European tea service format, she invited friends to join her at 5 o'clock at Belvoir Castle. Menu being small cakes, buttered sandwiches, assorted sweets and of course tea. The social event to come to tea was quickly picked up by social hostesses. By 1855 Queen Victoria adopted the craze for tea parties and her favorite was the simple Cake then named after her.

Papier Mache Glue

What You Need:

flour

water

salt

Mix 1 cup flour and 1 cup water, or 1/2 cup flour and 1/2 cup water until you get a thick glue-like consistency. Add a bit more water if it's too thick.

Mix well with a spoon to get rid of all the lumps. Add a few tablespoons of salt to help prevent mould.

You need to use strips of newspaper only, or even paper tissues or towels.

Let the newspaper strips soak in the papier Mache glue a little before using. Cover your artwork with only 2-3 layers, then let dry completely. This is an important step.

Once a layer is dry you can add 2-3 more layers, remembering to let each layer dry before adding the next one.

The final layer can be plain paper - so it's easier to paint - but use the thinnest paper possible and make sure it's soaked well in the papier mache glue
